

ICS Advent Omnix Thermal Specifications

		Processor Model Number/CPU Speed			
		800MHz	850MHz	866MHz	933MHz
Chassis Model	Heatsink Fan Combo	3-274858-0	3-274866-1	3-274868-1	3-274869-1
		3-274871-0			
100 Series	532-0001-00-A	50C***	45C	45C	40C
200 Series**	532-0001-00-A	50C***	45C	45C	40C
200 Series*	532-0000-00-A	50C***	50C	50C	TBD
400 Series	532-0000-00-A	50C***	50C	50C	TBD
500 Series	532-0000-00-A	50C***	50C	50C	TBD
600 Series	532-0000-00-A	50C***	50C	50C	TBD

Notes: * Standard configurator output for the 2U SBC thermal solution is the 532-0001-00-A (low-profile heatsink). The full-size heatsink (PN 532-0000-00-A) can be used to achieve higher operating temperatures, but one full-length ISA slot will be unusable.

** Standard configurator output for the 2U ATX thermal solution is the 532-0000-00-A (full-size heatsink). The low-profile heatsink (PN 532-0001-00-A) can be used, but lower operating temperatures will be required.

***800MHz processors and below use same temperature ratings.
